

Numerology & Personal Year Number

'Science of Numbers' is the definition which best defines the study of numerology. The term Numerology has been derived from the Latin word 'numerus' meaning numbers and the Greek word 'logos' meaning thoughts and expressions. Since ages the subject of numerology has been used by people to develop an esoteric relationship between the numbers and the character and habits of people. In numerology, numbers 1 to 9 have certain geometry. Numbers relate to a pattern of energies and vibrations. A practical approach towards life is possible only through the study of Numerology. And most important of all is that it prepares you to face all sorts of situation in your lifetime. Do you know which year will bring you fortune? Which year will be the year for financial progress and advancement is definitely unknown to you! Well, numerology can help you in calculating these basic things. These calculations often rejuvenate you as an individual and give you the spirit to work! The first and foremost number or cycle that affects your personal life and experiences is the Personal Year Number. The Birth Path Number of an individual always remains the same. But, each year following a native's birth is associated with a specific number and this very number is called the Personal Year Number. This number which tells you what lies ahead of you in the calendar year ahead. It helps you to realize that every particular year has a specific energy, which should be effectively harnessed for your own welfare. The Personal Year of a person indicates the trends of the forthcoming year for a person. For example, let us take the number '6'. The effect of this year number on an individual tends to bring about additional and dependable family responsibilities. He/she may also be called upon to make some adjustment in the personal life concerning friends, family and relatives. Thus, in short, this is a year for family, romance and finance as well. Like this, personal year number can help you guide what to do and what not to do and thus marks the rough step to your progress. Personal year is calculated by reducing the day of your birth and the month of your birth to single digits. Then reduce the year of your birth to a single digit. Now add the digits representing the three components of your birth date to single digit. This digit added to the single digit representing the year in question gives the personal year of a person.
